Enabling a whole new way to work

Build a foundation of secure productivity to get AI-ready

Μπότας Ανδρέας
Σύμβουλος στρατηγικής τεχνολογίας

Three steps and products to achieve foundational productivity with Microsoft 365 and Copilot

Cut through complexity and get to the new era of work

With Microsoft 365

1 **Set up a strong Zero Trust foundation**
Microsoft Entra ID | Microsoft Defender | Microsoft Purview Information Protection

2 **Streamline endpoint management**
Windows 11 Enterprise | Microsoft Intune | Windows Autopatch | Universal Print

3 **Drive productivity and collaboration**
Microsoft Teams | Word | Excel | PowerPoint | Loop | Outlook | Planner
Exchange Online | SharePoint Online | Microsoft Viva

Elevate productivity with Microsoft 365 Copilot

Microsoft 365
The journey to a new way of working

Set Up a Strong Zero Trust Foundation

Secure and manage identities

Defend against threats on multi platforms

Protect sensitive information across data estate

Streamline Endpoint Management

Improve IT efficiency

Manage and protect any endpoint

Deliver the best experience with Windows 11

Drive Productivity and Collaboration

Empower employees with best-in-class productivity apps

Get everyone connected and working together

Introduce the power of AI to employees safely

Elevate Productivity with

Copilot for Microsoft 365

Productivity and Collaboration
for today's digitally connected and distributed workforce

Get everyone connected and working together

Enable new patterns of work

Engage and empower your employees

Microsoft Teams,
Exchange Online,
Sharepoint Online,
OneDrive for Business

Word, Excel, PowerPoint, Outlook

Viva Insights in Teams
Viva Learning in Teams
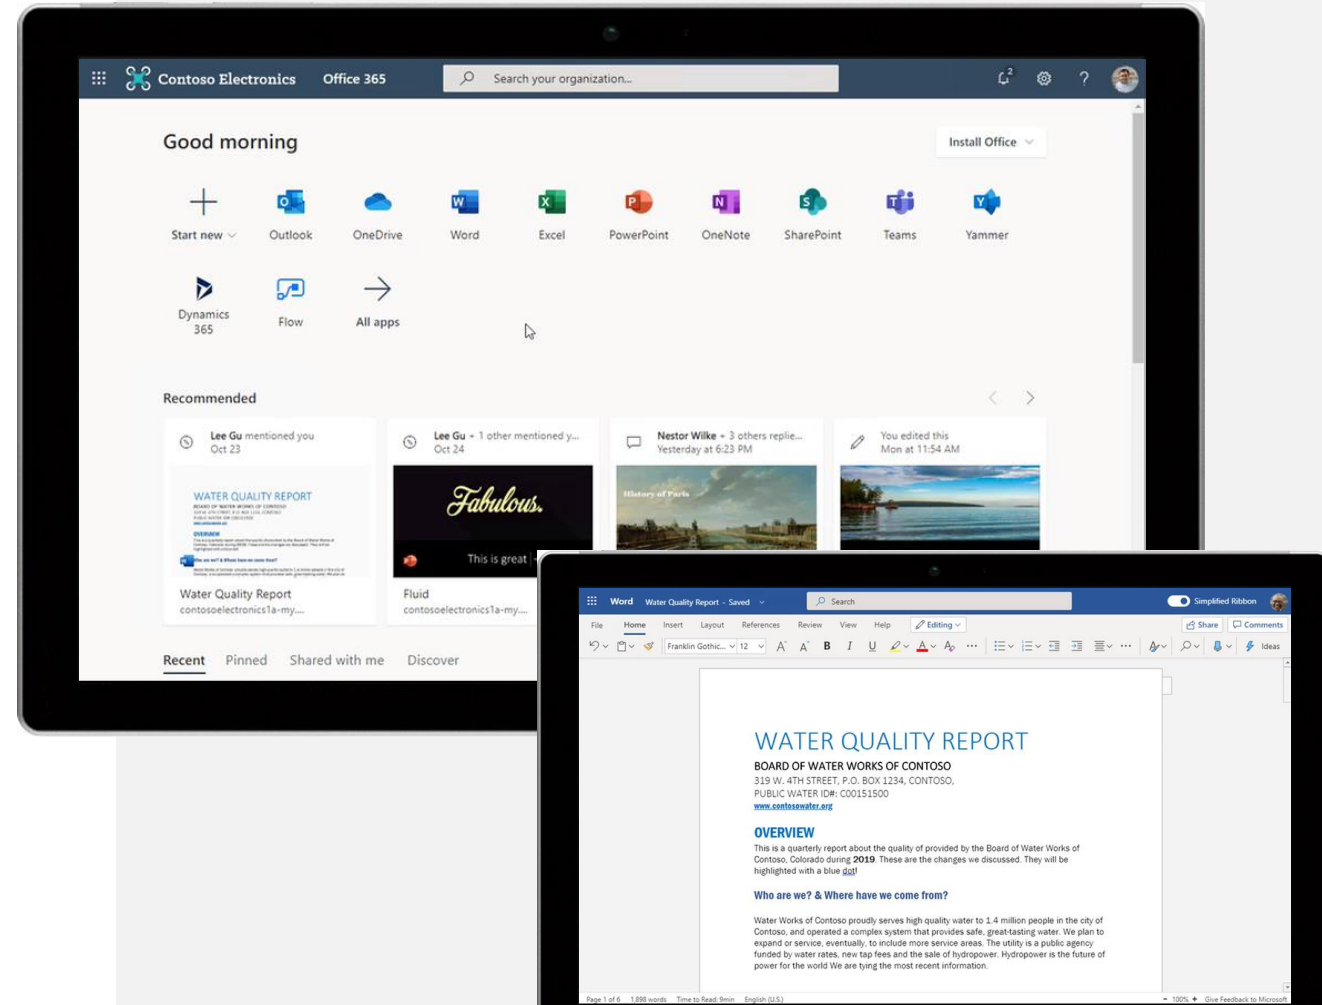

Get everyone connected and working together

① Connect and empower everyone wherever, whenever they are

② Designed for all types of workers from information workers to the frontline

③ Chat, meet, collaborate, brainstorm in one place without context switching

④ Help ensure participants can be seen, heard, and participate from anywhere

Microsoft Teams

Empower Employees with best-in-class productivity apps

① **Attend fewer meetings with** automatic meeting summaries, transcripts, and video

② **Rewire creative workflows** with always up-to-date Loop components

③ **Get real-time translation** of a meeting into 40 languages with Live Captions

④ **Streamline business workflows** in the flow of work with collab apps
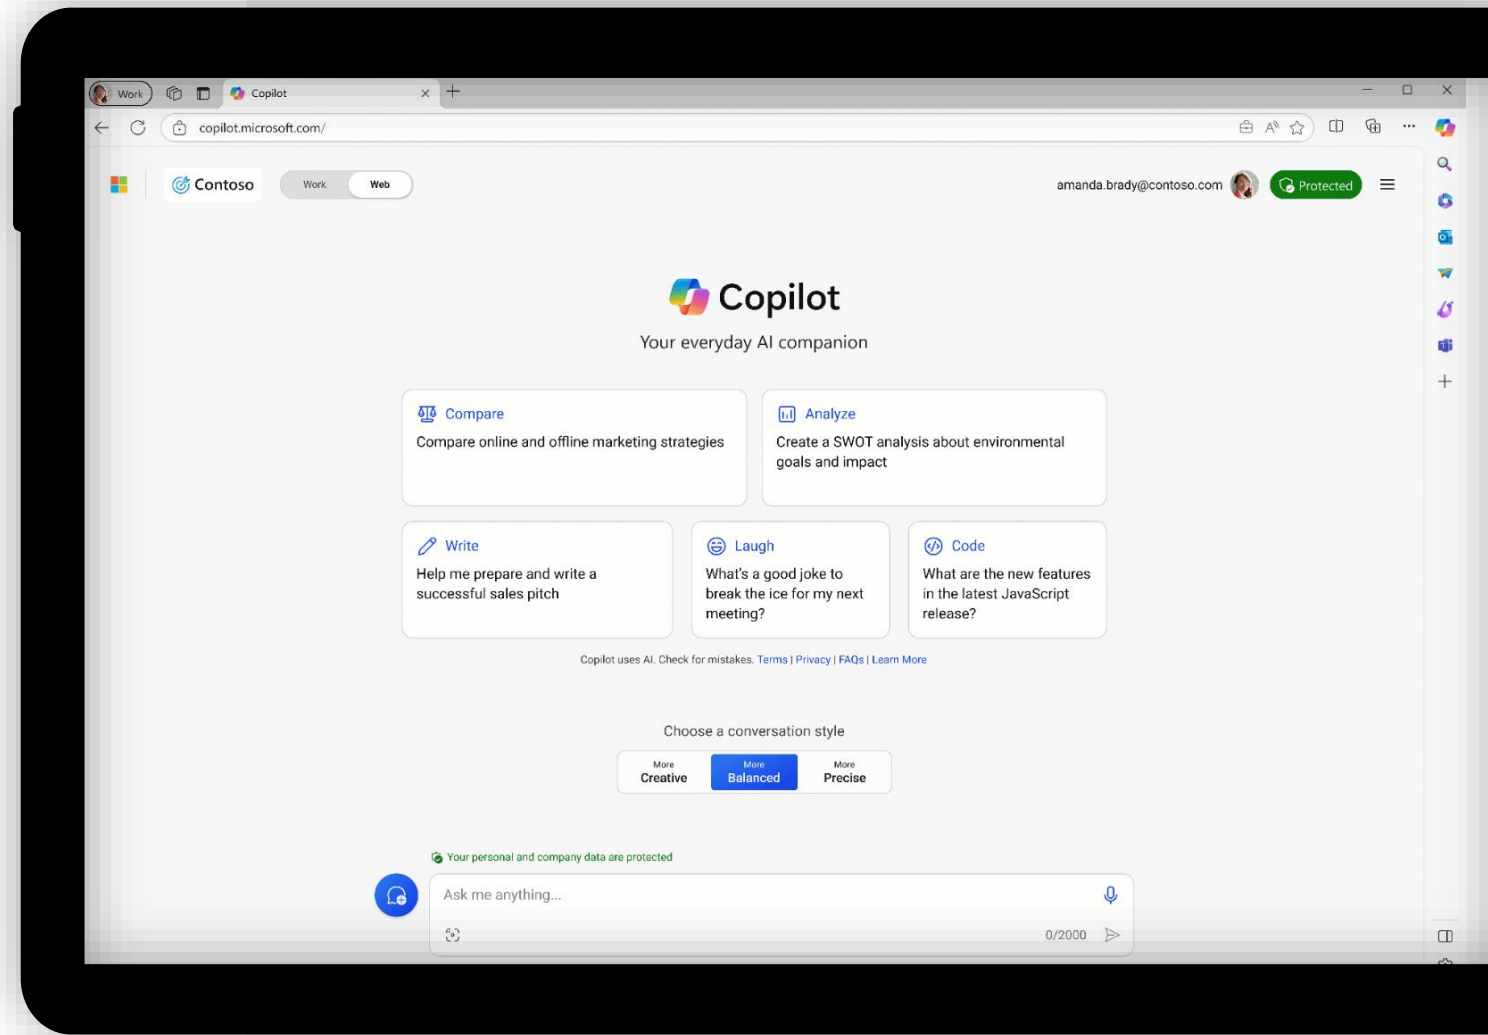

Teams, Word, Excel, PowerPoint, Outlook, Loop

Introduce the power of AI to employees safely

① **Draft content** including emails and social content

② **Get answers to complex questions** including questions with multiple data points

③ **Summarize PDFs** by using Copilot in Edge

④ **Generate new custom images** instead of stock and text only

Copilot (with enterprise data protection)

Streamlined endpoint management

Manage company owned and BYO devices

Deliver the best experience
with Windows 11

Deploy any endpoint
from the cloud

Improve support and
reduce incidents

Windows 11 Enterprise

Microsoft Intune
Windows Autopilot

Endpoint Analytics
Universal Print
Organizational Messages

Deliver the best experience with Windows 11

① **Keep people, data, & devices protected** and private through hardware and software security designed to work together

② **Upgrade to Windows 11 with confidence,** with over 99% app compatibility and App Assure [1]

③ **Empower flexible workstyles and smarter work** with snap assist, Microsoft Teams controls from the Task Bar, focus time controls, and more

④ **Use enhanced accessibility features,** e.g., system-wide live captions, natural voice access

Windows 11 Enterprise

[1] Based on Microsoft AppAssure data 2018-2021.
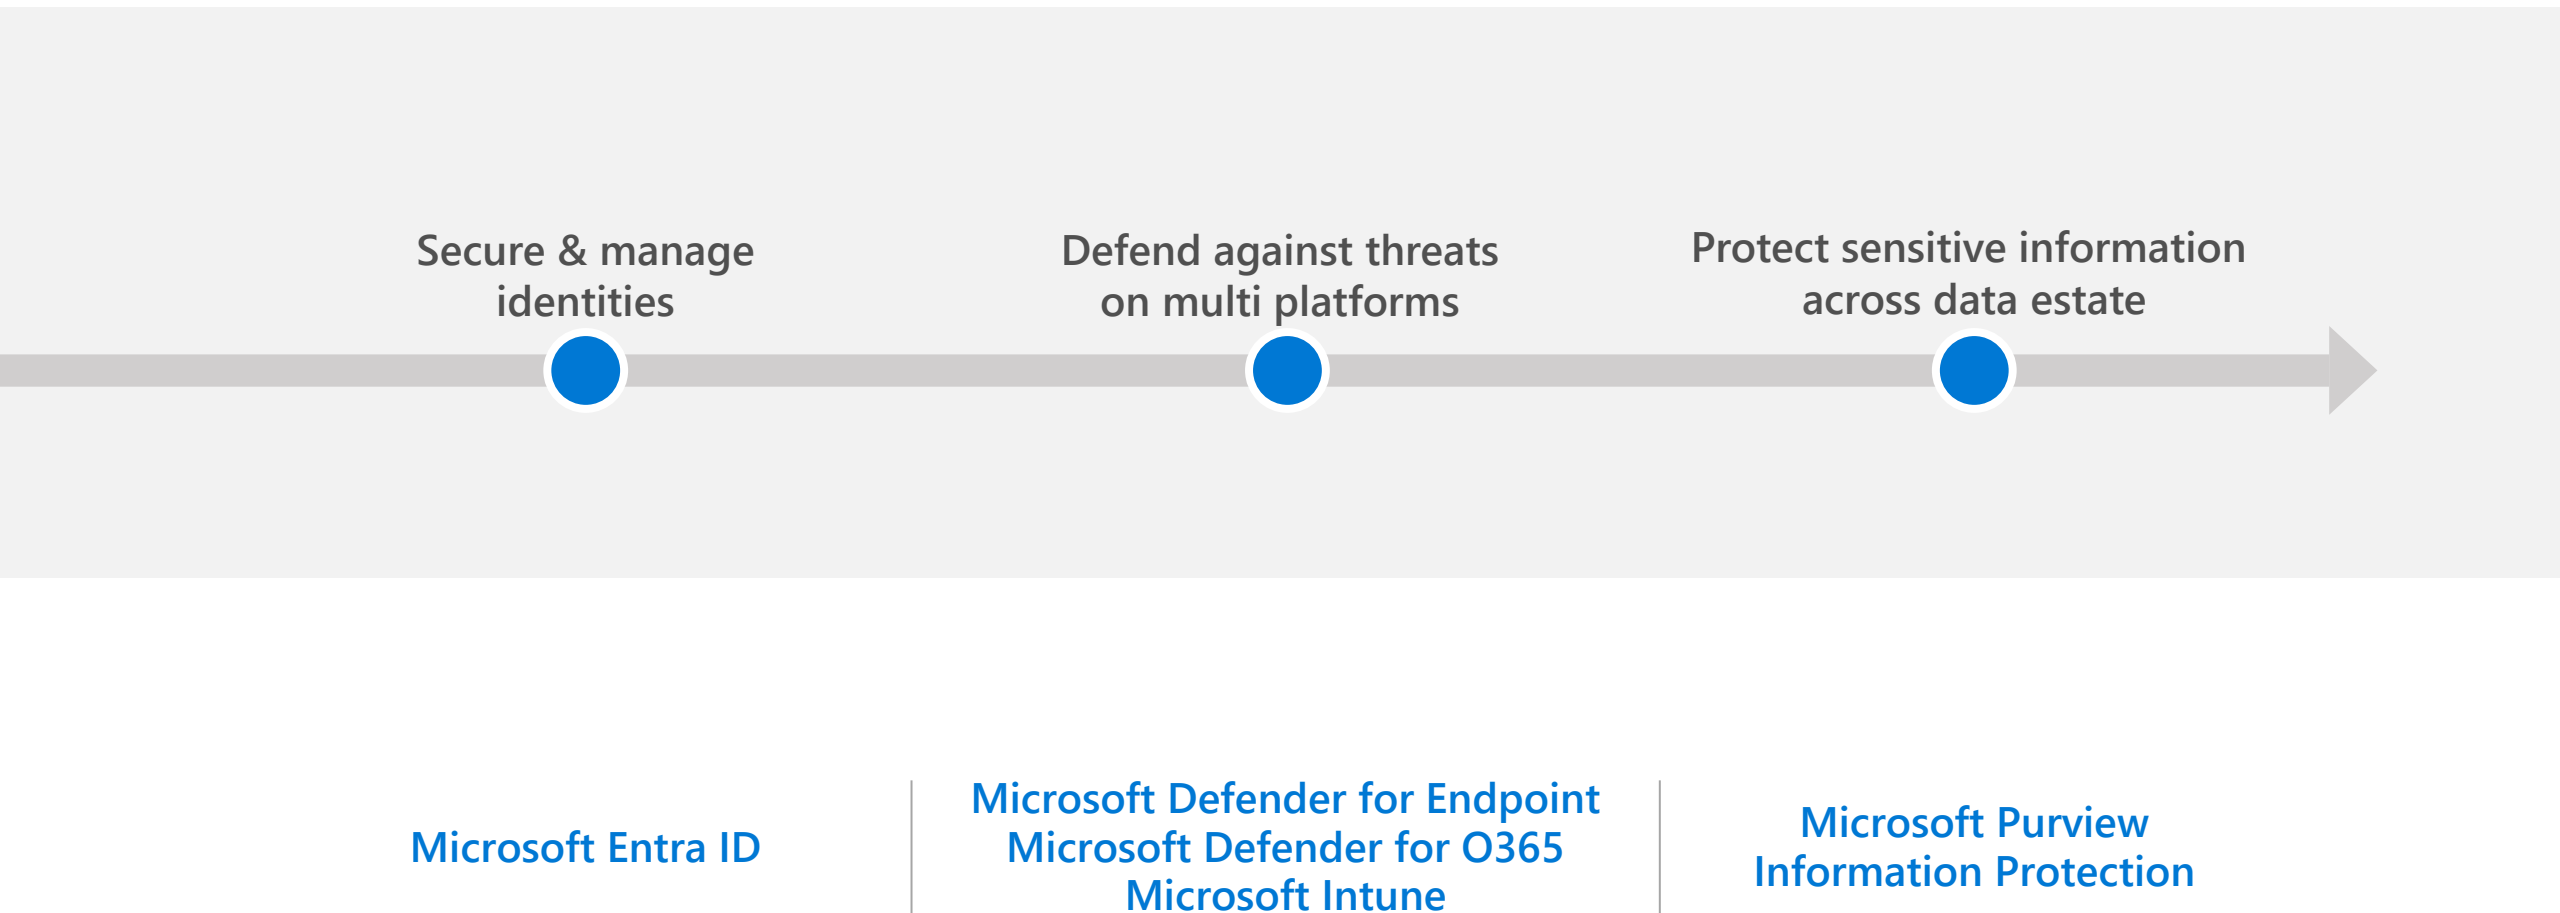

Streamline Endpoint Management

Deploy to virtually any endpoint from the cloud

1 **Ship new devices directly to employees** with zero-touch IT endpoint provisioning; enable mobile, BYOD, and personal devices

2 **Determine upgrade readiness** through endpoint analytics and machine learning

3 **Automate quality and feature updates** using Windows Autopatch

4 **Control quality, driver, feature updates,** tailored to your custom compliance policies

Microsoft Intune
**Windows Autopilot**
Windows Autopatch

Zero Trust is foundational to great security

Secure & manage identities

Defend against threats on multi platforms

Protect sensitive information across data estate

Microsoft Intune

Microsoft Purview
Information Protection

Secure and manage identities

1. **Enhance security, simplify access,** and set smart policies with a single identity platform.

2. **Craft your path to passwordless** with adaptive policies requiring multifactor authentication and phishing protection

3. **Give users prompts** to unblock themselves and get back to work with password change or reset—no admin or help desk needed

4. **Perform Continuous Access Evaluation** to remediate potential compromise in real-time

Monitor access

Defend against threats on multi platforms

1. **Help reduce risks** with threat detection and remediation

2. **Assess security posture,** isolate threats, and proactively block malware

3. **Help keep software current** with automated updates and ensure patches are deployed in a timely and efficient manner

4. **Enable device-based conditional access** for added data protection and breach prevention

Microsoft Defender for Endpoint

Microsoft Defender for O365

Secure Score

Microsoft Intune

Protect sensitive information across your data estate

1 **Encrypt data** at rest, in transit, and in use

2 **Discover and classify sensitive** content at scale and extend protection to Microsoft and non-Microsoft apps

3 **Address threat of data theft or exposure** from lost, stolen, or inappropriately decommissioned computers

4 **Preserve content** by custodian and send hold notifications

BitLocker
